

## STAMPING, MACHINING, FABRICATING AND COATING SOLUTIONS

Our "CONCEPT to COMPLETION" service oriented team coupled with superior program management works with Distributors and OEMs to supply application critical products that meet their specific needs. We supply custom washers, special metal stampings, machined components, fabricated products and assemblies, and other steel parts to many diverse Industries. Our manufacturing capabilities are complemented by an in-house supply of DACROMET® and GEOMET® coatings.

### Stamping

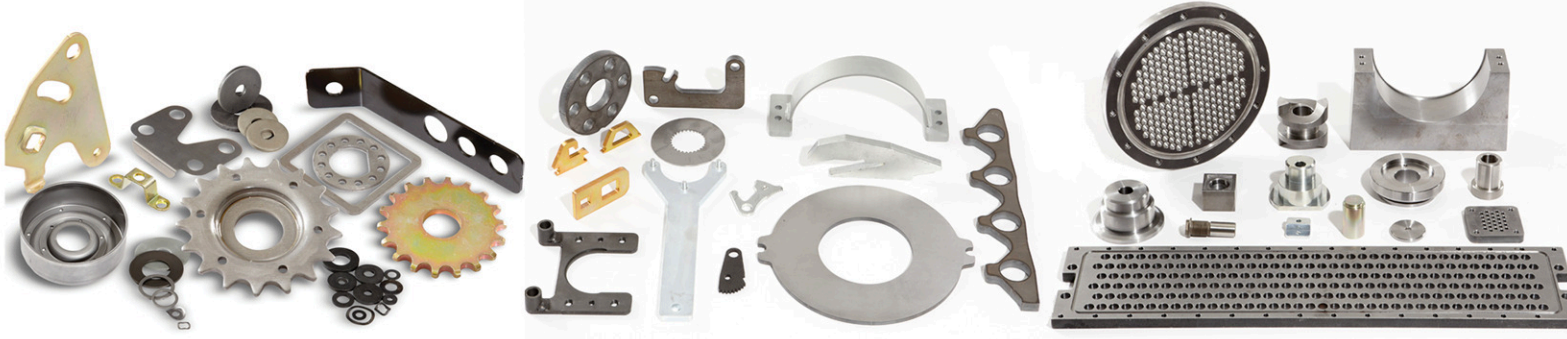

- Special Washers
- Belleville and Conical Washers
- Spring and Wave Washers
- Structural Washers
- 30+ presses ranging from 4-500 tons
- In-house Tool and Die Department
- Compound, Multiple and Progressive Die capabilities

### Fabrication

- State-of-the-art Laser Technology
- 2- 4,000kw and 1- 2,500kw Lasers
- Hi-def Plasma Cutting
- Robotic Welding Cells
- Forming and Bending

### Machining

- 20+ CNC Machines
- Horizontal and Vertical Lathes
- Horizontal and Vertical Machining Centers
- High Speed Drilling and Tapping
- Parts made from bar stock, forgings, stamped and laser cut blanks

## FULL SERVICE SUPPLY PARTNER ISO 9001:2008

**MATENAER CORPORATION** has over 40 years experience in manufacturing and has taken a focused approach in becoming a leading supplier of component metal parts. Matenaer operates out of a 120,000 sq. foot facility that has truly become a one-stop shop. Matenaer adheres to lean methodologies that enable us to be the lowest total acquisition cost supplier.

- ### SERVICE OFFERINGS
- Kitting Programs
